The Investable Benchmarks are an important starting point for all investors. These efficiently balanced portfolios each have roughly half of their exposure in stocks and bonds, and a 2% to 6% allocation in cryptocurrency. In addition, all of the bond allocations are entirely in long-term Treasuries in order to reduce risk. In 2017, we added the Income & Tech 3x portfolio (IT 3x) for aggressive growth investors and cryptocurrency exposure was added at year-end 2020 and 2021.
