

WHY LONG-TERM TREASURIES?

Long-Term Treasuries (TLT) have been the most effective asset class for portfolio protection when equities have crashed, but TLT has also disappointed investors at times. Overall, TLT has been a critical component within diversified long-term investment portfolios.

ETF	Symbol	Extreme Years									Trailing 10-Yr.
		'08	'09	'11	'13	'14	'15	'18	'20	'22	Annualized*
